

REMARKS

The above-identified case was formally allowed by the Examiner on August 26, 1993.

The above amendment is being made to eliminate any reader confusion in the word "paediatric" by converting it to the American customary spelling of -- pediatric --.

Further, the applicants are enclosing a copy of one page, page 1 of 2, of the PTO Form 1449, from the Examiner's Office Action of May 18, 1993. Please note that the page indicates that all of the references are initialed except for the first one, AA, being US Patent 4,870,085 to Glaser, et al. As noted, the reference is neither initialed or crossed out. For your convenience, a copy of the Glaser reference is being submitted in case the Examiner's copy has been misplaced.

The Examiner is respectfully requested to reconsider and to initial the reference AA on the indicated page and return it to the applicants. Note that the Class and Subclass have been supplied.

If the Examiner has any questions, she is invited to contact the undersigned attorney at the below-indicated telephone number, or the facsimile number of (908) 594-4720.

Respectfully submitted,

By
